

## Press Release Simtec Systems 09 May 2018

### **Simtec is setting the course for further growth of the company**

#### **Simtec Systems expands in Braunschweig, Germany and Wuhan, China**

To be able to manage the growing business, Simtec is

- expanding its production facilities at the headquarter in Braunschweig, Germany and
- is extending the infrastructure to provide services in China.

In January 2018 Simtec's new annex to the former office building was finished and new offices were ready to move in. The office space was nearly doubled to be able to increase the number of employees from currently 60 up to 100.

#### **Simtec Manufactory - New production hall until end of October of 2018**

In order to meet all customer requirements and to build, test and install more and bigger systems Simtec has started the construction of a new production hall called "Simtec Manufactory". The construction will be finished until end of 2018 and has got 5,500m<sup>2</sup> assembly and test space.
